
2015 CES
INNOVATION AWARDS

The 2015 International CES Innovation Awards, culminating at the International CES® in Las Vegas, is the ultimate recognition for the design and engineering of consumer technology products. Since 1976, this prestigious program has honored today's ground breaking technology.

The awards span 28 product categories and cover the most influential and innovative fields in the industry, from smart home to wearable technologies. Entries are evaluated on their engineering and design qualities: aesthetics, functionality and uniqueness. The expert panel of judges consists of an independent designer, independent engineer and a member of the trade press.

Products chosen as Innovation Honorees reflect the cutting-edge ingenuity that drives our industry forward. The Best of Innovation designation goes to the top-scoring product in each respective category.

This year's honorees will be featured at CES Unveiled Las Vegas on January 4 and within the Innovation Awards Showcase at CES Tech West in the Sands, Level 2, Booth #75545.

For more information on the honorees, visit CESweb.org/Innovation.

Congratulations to the 2015 Innovation Honorees!

2015 BEST OF INNOVATION AWARD HONOREES

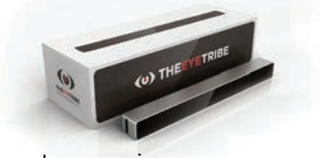
adidas Smart Ball
adidas
Smart Ball is a soccer ball with an integrated sensor that detects speed, spin, flight path and impact point. Kick data is transmitted wirelessly over Bluetooth Smart where it is displayed in a highly visual way.

AIR²
Axxess CE
AIR² is the first ever of its kind, a floating Bluetooth speaker that levitates over its base and punches out very acoustic yet powerful sound. Patent Pending.

The Dash
BRAGI
The world's first completely wireless hearable: smart headphones offering freedom of movement, maximum comfort and amazing sound. All while audibly coaching, tracking movement and capturing key biometric data.

iCam HD Pro
Amaryllo International B.V.
iCam HD Pro is Amaryllo's newest entry to the home security market. It is an innovative home security camera featuring full HD video, object tracking, multi-viewing, and 360° of rotation giving the user complete control over their home anywhere.

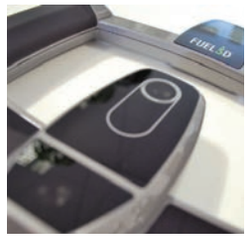
NightHawk
AudioQuest
NightHawk is a semi-open, over-ear headphone which represents a huge leap in high-end headphone design and engineering. It features several patented inventions, mind-bending eco-friendly materials and performance that bests even the most pricey flagships.



The Eye Tribe Tracker
The Eye Tribe
This small device represents a major breakthrough in eye tracking. It is the world's smallest eye tracker, the first to use USB 3.0 and the only alternative below the magical price point of $100.

Estelon Extreme
Alfred & Partners
A revolutionary new flagship loudspeaker from Estelon, "Extreme". This monumental sculpture of a speaker is capable of reproducing the highest quality soundscape, where the speaker itself completely disappears as the sound source.

Fuel3D Scanner
Fuel3D Inc.
The Fuel3D scanner is an affordable, handheld 3D scanning system that delivers high-resolution 3D shape and colour capture for a range of creative applications.



Venue 8 7000 Series
Dell Inc.
Innovation in its thinnest form, the new Dell Venue 8 is the thinnest tablet in the world at just 6mm and is the first in the world with the Intel® RealSense™ Snapshot Depth Camera. It also features the best tablet display technology and new Dell Gallery.

2015 BEST OF INNOVATION AWARD HONOREES

Elite SC-89
Pioneer Electronics (USA) Inc.
Pioneer Elite SC-89 9.2-channel AV receiver incorporates new Dolby Atmos technology with the ability to decode/playback Dolby Atmos immersive content, Class D3 amplification technology and MCACC Pro acoustic calibration system.

Fidelio B5 Wireless Surround-on-Demand Soundbar
Philips
Philips Fidelio B5 wireless surround soundbar speakers bring real surround sound to home cinema with wireless sub-woofer and detachable wireless rear speakers.

iHealth Align
iHealth Lab Inc.
This powerful glucose meter plugs directly into your smartphone's headphone jack and displays results instantly on the phone screen using a mobile app. Its compact size and mobile capability make it the most convenient tool for diabetes management.

Noke
FŪZ Designs
Noke is the world's first bluetooth-enabled padlock. Protect your property and belongings without the hassle of keys or combinations. Share access with others via the Noke app with the tap of a button.

Parrot RNB6
Parrot
Android 2-DIN Infotainment system that enhances the driving experience through navigation and driving assistance, vocal and steering wheel controls, in-vehicle networking, advanced audio player and effects and works as an extension of the driver's digital life.

Software Suite Powered by InfoMotion
InfoMotion Sports Technologies
The 94Fifty® Smart Sensor Basketball Glassware app is a first-in-class software innovation between non-wearable fitness devices that require continuous, complex motion analysis and wearable fitness devices with limited processing capacity.

Qualcomm® WiPower ™
Qualcomm Inc.
Qualcomm's WiPower™ enables wireless charging through radio frequencies and provides greater flexibility for design and installation into phones and other applications like vehicles, office and home furniture and communal spaces.

Samsung Galaxy Note Edge
Samsung
The Galaxy Note Edge blends the best of the Note 4 experience with an intuitive second screen, evolved S Pen and superior viewing experience to create the most innovative and powerful mobile experience on the market.

2015 BEST OF INNOVATION AWARD HONOREES

Sony a7S Full Frame Mirrorless Camera
Sony
The world's smallest full-frame interchangeable lens camera, Sony's new A7S model puts extraordinary sensitivity, low noise and spectacular 4K video quality into the hands of professional photographers and videographers.

Swiftpoint GT
Swiftpoint Inc.
The first mouse allowing truly natural touch gestures without touching the screen or having a touch display. Available for Windows 10/8/7, Mac, iPad and Android. Bluetooth and wireless USB. Ultra-small unique ergonomic design.

Edyn Garden Sensor and Water Valve
Edyn
Edyn is a smart gardening system that monitors and tracks environmental conditions to maximize plant health. The system includes the Edyn Garden Sensor, Edyn Water Valve and Edyn App, which reviews plant soil and makes smart recommendations about what to plant, when to water and fertilize.

Snap
Sengled
Indoor/Outdoor LED PAR lamp with integrated 720p HD IP Camera, microphone and speaker. Supports cloud recording/playback, voice and motion activation, facial/activity recognition for home security, automation and commercial applications.

Multi-function Air Light (Z-Air)
Zalman USA Inc.
Z-Air is a ceiling fan with concealed blades, air purification and LED lamp integrated together into a sleek and aesthetically-pleasing dome. Simple and easy installation, plus smart automation for hassle-free use and operation.

ZUtA Pocket Printer
ZUtA Labs
We re-imagined the printer to fit today's "on-the-go" working space. We created a little robot that runs on the paper and lays the ink while doing so. The printer is small in size, yet can print on any size of paper, making it a truly mobile printer.

Whirlpool® HybridCare™ Clothes Dryer
Whirlpool
The new Whirlpool® HybridCare™ clothes dryer with Hybrid Heat Pump technology is designed to regenerate energy during the drying cycle to reduce energy consumption while providing dryer speed performance and flexibility.

Accell
Mini DisplayPort 1.2 to 2
DisplayPort Multi-Display MST Hub
The Accell 1x2 MST Hub allows the addition of two DisplayPort monitors from a single Mini DisplayPort (or DisplayPort version) output. Utilizing the new multi-stream transport (MST) protocol, supports up to two displays independently at 3840x2160 @30Hz.
